File "Memo
to DCI"

29 August 1978

MEMORANDUM FOR: The Director of Central Intelligence

FROM : Presidential Briefing Coordinator

SUBJECT : Preparations for 1 September National Security Council Meeting

1. Attached is a package of material in preparation for the NSC meeting on the Camp David Summit. In addition to backup material, it contains:

a. Draft talking points for a 5-7 minute presentation which attempts to

- Set the scene quickly in terms of the history of Israel and the military situation. This is simply to make sure all participants have the same set of very basic facts.
- State the views Begin and Sadat bring to the meeting and how other Arabs stand. This is the kernel of the briefing.
- Discuss the consequences of failure. I think you probably will want to stop after you have defined failure, but the talking points go further in case you want to use them.

b. Proposed graphics. These will be prepared on 30" x 40" briefing boards. They include graphics for use in your briefing and backup maps for use in the course of the discussion. I assume you will also hand out a packet containing about 20 maps at the meeting for continued reference use during the Camp David Summit.

2. You will find some minor differences in format between the materials in this package and those provided by the NIO/NESA. We are working in parallel and so have not smoothed out all of our differences.
